

**Easy Checking link for Articulate:** /story.html  
**Easy Checking link for Html (old framework):** /pages  
**Tincan links:** only do .zip file, not the Easy Checking Link.  
**How Too:** they will give us the link  
**How Too:** /index.html  
(put /download on end of link to download .zip file)

---

Hi ,

Please find the links below:-

**Module Name:**

<https://savv-e.net/>  
(SCORM compliant package)

<https://savv-e.net/>  
(Easy Checking Link)

You will need the following details to access the links:

**Username:**

**Password:**

Please Note:

1. The Easy Checking link is for content review purposes only. Use the zip files for actual function testing.
2. The above links/files will only be valid for 3 months. Files will be removed from our download server after this time.
3. You may experience slow loading times due to its high amount of traffic.
4. Please ensure that any popup blockers are managed appropriately when reviewing the module(s).
5. IMPORTANT: Before running any new module(s), please clear your browser's cache. Information on how to clear your cache can be found at: <http://www.savv-e.net/savve/cache/index.html>

Please feel free to contact us for any further assistance.
